

### REMARKS

As objected to by the examiner, the specification is amended regarding the degree of cover provided by the invention over a windshield. The claims as amended describe the invention as partially covering the windshield. The specification is then amended regarding possible materials to construct for the invention.

In the drawings, the examiner objected to the destination of leader lines from character 10. Those leader lines have been re-pointed towards the brackets as shown on the replacement sheet.

Previously, claims 6-11 were pending. After applicant has reviewed the office action from the examiner, the applicant recognizes the examiner's final rejection of claims 6-9. Applicant has hereby cancelled claims 6-9. Applicant understands that claims 10 and 11 are deemed allowable pursuant to *Ex parte Quayle* practice.

This application as amended is now believed to be ready for allowance. Favorable action by the examiner is respectfully requested.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Charles C. McCloskey", with a long, sweeping horizontal stroke extending to the right.
